### Editorial Review

From School Library Journal

Gr 6–10—This manga was created by the same author/illustrator of "Dragon Ball Z," and it includes a chapter revealing the secret of Goku's origins, so it will already have a built-in audience. But even for readers who aren't already fans or aren't emotionally invested in Goku, this is still an enjoyable story that stands on its own. Alien Jaco's ship accidentally hits our moon (he was distracted watching a video) and then lands on Earth near an island that's occupied by a retired scientist named Omori. The narrative is filled with light humor but also has darker elements. Jaco wants to beat up any humans he thinks exhibit rude behavior, and he has an extinction bomb that he might or might not use to kill all the humans on the planet. He's also consumed with how cool he looks and spends a lot of time shouting about who he is and then posing dramatically. The illustrations are cartoony and cute, and the decision to introduce different characters by having them pose like Jaco is hilarious and inspired. VERDICT A very adorable fantasy that will be appreciated by humor and manga fans.—Andrea Lipinski, New York Public Library
