★★★★ "Ihave read the works of Harry Lorayne, Dominic O'Brian and Tony Buzan, and finally, Anthony Metivier was able to fill in the gaps I had beenmissing." - *Jessica S*.

From the Author More Praise for Anthony Metivier's Magnetic Memory Method

★★★★ "This works and is very do-able." - *Kathleen Poole*

 $\star \star \star \star \star$ " I am finding memory palaces that will be wonderful. My house wasn'tvery good but my job a supercenter of a company that is bigger than some small countries is amazing. At the service area I have thought of over26 subpalaces.....All in all I think this course is not only going tohelp me memorize places, but ideas as well. I may even be able to write a novel with this system... If that happens it would be priceless...."

- Amanda Humes

 $\star \star \star \star \star$ "I have read a few books on memory training, and what I liked aboutAnthoney Metivier's course here is that he has studied a number of the classic memory systems and synthesized a modern approach. He give good examples and his ideas of using Excel spreadsheets to help assist inorganizing the memorization process is very helpful.

Of course, as with any activity, you only get out of it what you put into it, butAnthony is so enthusiastic and

persuasive that I felt inspired to learn to stick to a daily study routine and indeed learn memorize vocab." - *Chris Guthrey*

 $\star \star \star \star \star$ "It is amazing how many spanish words I am learning with ease aftergoing through this course. After sharing with family friends the number of words I am memorizing every day, the first response is generallyunbelief. Though I have a ways to go, when we are out in the Latinocommunity, my friends and family are asking me for assistance. Iactually wake up each morning excited about picking up and memorizingnew words from a Spanish Dictionary! Who gets excited about goingthrough a dictionary? Anthony you are my hero!!!"

- James Lewis

 $\star \star \star \star \star$ "With your incredible help, I've been able to memorize the Greekalphabet (words and symbols) front words and backwards in about 3 or 4total hours of work. I was very worried as I tackled this project, butyour techniques were so very helpful."

- Kevin Wax

★★★★ "I have being using this method for learning German for the last while. I read books written by Harry Lorayne, Joshua Foer, Kevin Trudeau etc. I could not get it working. Since I came across this method all missingpieces came together. I am able to memorize around 300-400 words permonth. I am very sorry that I have not used mnemonics techniques before. The concept is simple but method is only hard to begin with. Iguaranty, if you persist for one month it would hugely pay off. Greatmethod!!!" - *D. Stojanovic*

★★★★★ "It works!

Afun and powerful way to remember. Recalling stuff with this method isoften magical. The more you use it the more confidence you have in yourown ability and the less stress you feel." - *Sean Cunningham*

 $\star \star \star \star \star$ "Difficult to believe BUT Easy to do.

I memorised my first pack of shuffled cards in less than a week, I didnot believe that it would be as easy as it was. I have almost finishedmy 26 memory palaces. The task of creating the memory palaces and thememorisation process in general has a great positive effect on how youfeel." - *Kevin McG*

**** "I have completed severalmemory courses and have had varying degrees of success. However, Anthony gives some detailed advice and training tips, that have madememorization, languages in particular, a lot clearer to me. For myself,he has filled in the blanks so to speak and he has provided some solidinformation and tools, that have allowed me to take my language studies a much higher level. Not to mention the fact, that I am now able to expedite the whole process." - *Mike Newton*

 $\star \star \star \star \star$ "I'vebeen pretty disappointed with most "self-help" materials, as they usually end up giving you nothing more than an ecdotes that would onlywork if you somehow ended up in the EXACT situation as the person in their story. This course is different--you get specific principles that can be applied anywhere and any time. The course is well-presented and interesting."

- Michael Gerity

★★★★ "This method isreally good. But its author is really there. I mean that he is answering once and over your questions. Before 24h he advise you and guide you to achieve your aim. And there are extras within that you find out day byday. I am very satisfied and just beginning with it." - *Josep Carrion*

 $\star \star \star \star$ "I'm a linguist in the military who was required to learn a verydifficult Middle Eastern language within one year. They sent me tospecialized training, where native speakers provided an "immersion"-like environment and threw vocabulary lists at us every day for a 10 months. We were then expected to pass a rigorous evaluation in order to passthe training. If only I had had this course during those agonizingmonths, I would have not only passed with flying colors, but finishedahead of schedule! I'm now confident to attempt even more languages, aswell as further improve and develop my current language." - Jacqueline Wright

 $\star \star \star \star \star$ "Nicely organized and gives multiple strategies for memorizing names and facts . No grandious claims just solid information."

- Kathleen Byrne
