Advances in Food and Beverage Labelling: Information and Regulations (Woodhead Publishing Series in Food Science, Technology and Nutrition)

From Woodhead Publishing

Advances in Food and Beverage Labelling reviews recent advances in labelling research and regulation, covering issues such as nutrition and hazard information, traceability, health claims and standardisation, as well as new labelling technologies and consumer issues. The EU Food Information Regulation will come into force in December 2014 and the book is designed to provide timely and useful information to manufacturers in this area, as well as on a global scale. Part one covers the different types of information that can, or must be present on a food label. Part two looks at recent developments in food labelling technology, regulations and enforcement.

- Brings together contributions from industry, trade bodies, government and academia.
- Offers timely advice for those concerned with the legal framework for food labelling, with information about the EU Food Information Regulation, as well as the US market.
- Reviews issues surrounding nutrition and health claims and GM, ethical and environmental labelling.

Your knowledge can inspire average, make them reading a reserve.

Kathy Ahmed:

As a student exactly feel bored to help reading. If their teacher inquired them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their hobby. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that examining is not important, boring and can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this *Advances in Food and Beverage Labelling: Information and Regulations* (Woodhead Publishing Series in Food Science, Technology and Nutrition) can make you feel more interested to read.
