### Faction Paradox: Warlords of Utopia By Lance Parkin

Rome never fell. Hitler won. Now they are at war. Marcus Americanus Scriptor's memoirs of the war between every parallel universe where Rome never fell, and every parallel universe where Hitler won the Second World War, have long been regarded as the definitive account of that turbulent time. Scriptor's life story, from his early life among the housesteads of an obscure province to his role in the ultimate confrontation with Nazism, was intimately connected with the major political and social developments of his time. His highly personal record of events was praised even in his own lifetime for its honesty and intimacy, as well for capturing the scale of a war that consumed thousands of worlds. This exciting new translation of a classic work of military history is accessible to new readers and existing students of the War alike. This is the third original Faction Paradox novel.
