### Sexualising Society: 238 (Issues) By Cara Acred

Whatever happened to letting children be children? Adults are becoming increasingly worried that society's young people are being subjected to premature sexualisation by the media and the environment around them. With over one in five children in the UK viewing 'inappropriate' content on their smartphones, this seems a legitimate concern. But are we overreacting? This book explores the idea of sexualisation, the impact of porn and the media, and asks what part parents have to play in these issues.
