

# The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing

By Bianca Scholten

#### **The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing** By Bianca Scholten

In recent decades, industrial companies have invested much time and money in enterprise resource planning (ERP) systems and in automation of the process control layer. In our quest to reap the rewards of all these investments, the gap between business automation and process automation is becoming painfully obvious. ERP systems are only valuable if you supply them with current data, and these data originate largely from the process control layer. When integrating these systems, both IT departments and engineering departments must confront the high degree of heterogeneity found in technology, metadata, programming languages, user interfaces, and more. Good communication with the system's end user is essential as several departments are usually involved, such as production, maintenance, the lab, and the office. Try speaking the same language then! Against this backdrop, ISA decided in the 1990s to develop the ISA-95 standard for integrating enterprise and control systems in order to reduce the risks, costs, and errors that go hand in hand with implementing manufacturing control systems and integrating them with ERP systems. This handy resource explains how to apply ISA-95 in manufacturing enterprise systems (MES) and vertical integration projects, as well as reveals the most important ISA-95 models and terminology. It is ideal for those just starting out who need to get up to speed on ISA-95's background information but also for those who have some practical experience with ISA-95 and require additional support in carrying out analyses to determine a specific company's MES strategy and to define user requirements. If you develop MES functionality or realize interfaces based on ISA-95, then this guide will help you understand and apply the ISA-95 object models. Most important, the guide explains how to integrate ERP and MES systems using ISA-95. It places ISA-95 in the broader context of modern information exchange technologies and thus offers a complete picture for project managers, consultants, programmers, and information architects who want to integrate ERP and MES systems based on the international standard. - See more at: https://www.isa.org/store/products/productdetail/?productId=116016#sthash.aJ7ITTfn.dpuf

#### **Editorial Review**

#### About the Author

Bianca Scholten is a partner at Ordina, one of the largest publicly traded consultancy service providers in the Netherlands and Belgium in the areas of information and communication technology and management. She was the driving force behind the inception of the Ordina ISA-95 & MES Competence Center. Ms. Scholten advises national and international industrial companies on how to determine their manufacturing automation strategies. She has trained hundreds of professionals in applying ISA-95, mostly in Europe. Ms. Scholten is an active member of the SP95 committee. She publishes regularly in trade journals and frequently speaks at conferences on subjects related to vertical integration and technical automation. In addition to these areas of expertise, Ms. Scholten is also an art historian. She received her Masters degree from the University of Utrecht, the Netherlands, in 1993.

#### **Users Review**

#### From reader reviews:

#### **Carlos White:**

With other case, little individuals like to read book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing. You can choose the best book if you'd prefer reading a book. As long as we know about how is important some sort of book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing. You can add understanding and of course you can around the world by a book. Absolutely right, since from book you can recognize everything! From your country right up until foreign or abroad you can be known. About simple issue until wonderful thing you can know that. In this era, we could open a book as well as searching by internet unit. It is called e-book. You may use it when you feel uninterested to go to the library. Let's go through.

#### **Michael Rodiguez:**

This book untitled The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing to be one of several books this best seller in this year, here is because when you read this e-book you can get a lot of benefit into it. You will easily to buy this specific book in the book shop or you can order it by way of online. The publisher of this book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Smartphone. So there is no reason for your requirements to past this reserve from your list.

#### **Richard Nix:**

Do you like reading a book? Confuse to looking for your best book? Or your book had been rare? Why so many concern for the book? But virtually any people feel that they enjoy regarding reading. Some people likes examining, not only science book but additionally novel and The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing as well as others sources were given know-how for you.

After you know how the truly great a book, you feel would like to read more and more. Science e-book was created for teacher or students especially. Those textbooks are helping them to include their knowledge. In various other case, beside science reserve, any other book likes The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing to make your spare time a lot more colorful. Many types of book like this one.

#### **Robert Monson:**

Reserve is one of source of knowledge. We can add our knowledge from it. Not only for students but native or citizen have to have book to know the change information of year to year. As we know those textbooks have many advantages. Beside we all add our knowledge, also can bring us to around the world. By the book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing we can have more advantage. Don't you to be creative people? To become creative person must love to read a book. Just choose the best book that ideal with your aim. Don't be doubt to change your life with that book The Road to Integration: A Guide to Applying the ISA-95 Standard in Manufacturing. You can more inviting than now.
