

Head First Python: A Brain-Friendly Guide

By Paul Barry

Head First Python: A Brain-Friendly Guide By Paul Barry

Want to learn the Python language without slogging your way through how-to manuals? With *Head First Python*, you'll quickly grasp Python's fundamentals, working with the built-in data structures and functions. Then you'll move on to building your very own webapp, exploring database management, exception handling, and data wrangling. If you're intrigued by what you can do with context managers, decorators, comprehensions, and generators, it's all here. This second edition is a complete learning experience that will help you become a bonafide Python programmer in no time.

Why does this book look so different? Based on the latest research in cognitive science and learning theory, *Head First Python* uses a visually rich format to engage your mind, rather than a text-heavy approach that puts you to sleep. Why waste your time struggling with new concepts? This multi-sensory learning experience is designed for the way your brain really works.

Editorial Review

About the Author

Paul Barry is formally educated and trained in Computer Science and holds a Masters Degree in Computing Science. He has been programming professionally, on and off, for close to 25 years. Paul already has two textbooks to his name, and is also a Contributing Editor to Linux Journal magazine. His day job is with the Institute of Technology, Carlow in Ireland where he has spent over a decade preparing Ireland's next generation of computing folk to be productive in the workforce. His role as a third level educator affords him the opportunity to explore, learn and teach the very latest programming technologies and practices, which is something that he enjoys even though he knows this makes him a bonafide "geek". Paul lives just outside the town of Carlow in Ireland with his wife, two sons, daughter, dog and cat. There's a bunch of computers and a growing collection of music instruments in the house, too (and like a lot of the Head First family, Paul is a struggling guitarist trapped inside a geek's body). He has so far resisted any suggestion that the family acquire a hamster ... or a set of drums.

Users Review

From reader reviews:

Cindy Grant:

The knowledge that you get from Head First Python: A Brain-Friendly Guide could be the more deep you searching the information that hide in the words the more you get considering reading it. It does not mean that this book is hard to recognise but Head First Python: A Brain-Friendly Guide giving you buzz feeling of reading. This specific book also makes your own vocabulary increase well. That makes it easy to understand then can go along with you, both in printed or e-book style are available. We suggest you for having this Head First Python: A Brain-Friendly Guide instantly.

Donna Macdonald:

Information is provisions for folks to get better life, information nowadays can get by anyone in everywhere. The information can be a information or any news even a problem. What people must be consider if those information which is inside former life are hard to be find than now's taking seriously which one would work to believe or which one often the resource are convinced. If you get the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All of those possibilities will not happen inside you if you take Head First Python: A Brain-Friendly Guide as the daily resource information.

Candice Foushee:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the

library or to make summary for some reserve, they are complained. Just tiny students that has reading's soul or real their pastime. They just do what the teacher want, like asked to the library. They go to there but nothing reading critically. Any students feel that reading is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Head First Python: A Brain-Friendly Guide can make you sense more interested to read.

Melissa Gusman:

Some individuals said that they feel uninterested when they reading a book. They are directly felt the idea when they get a half regions of the book. You can choose the particular book Head First Python: A Brain-Friendly Guide to make your reading is interesting. Your skill of reading ability is developing when you including reading. Try to choose simple book to make you enjoy to read it and mingle the sensation about book and reading especially. It is to be initially opinion for you to like to available a book and study it. Beside that the guide Head First Python: A Brain-Friendly Guide can to be your brand-new friend when you're sense alone and confuse in what must you're doing of the time.
