Systems Analysis & Design in a Changing World, Fourth Edition By John W. Satzinger, Robert B. Jackson, Stephen D. Burd

Building on its continued success this text has been revised to provide the most comprehensive, balanced and up-to-date coverage of systems analysis and design available. The Fourth Edition maintains the dual focus on the concepts and techniques from both the traditional, structured approach and the object-oriented approach to systems development. Instructors have the flexibility to emphasize one approach over the other, or both, while referring to one integrated case study that runs through every chapter.

Editorial Review

About the Author

John Satzinger is a Professor in the Computer Information Systems department at Missouri State University. With teaching and research experience at leading CIS and MIS university programs since 1991, Dr. Satzinger provides a strong managerial focus and powerful vision for this text. His interests and specialties include systems analysis and design, graphical user interface design, object-oriented development, and database and client-server development. He earned his MBA from Cal Poly University and his Ph.D. from the Claremont Graduate University.

Robert Jackson is a retired member of the faculty of the Information Systems Department at Brigham Young University. He has researched, published, and taught in the areas of object-oriented systems development, e-commerce, Web systems, project management, and information systems education. Bringing a wealth of real-world business experience and technical expertise to this book, Dr. Jackson is currently self-employed as a principal in several new e-commerce ventures, where he practices firsthand the analysis, design, and business principles presented in the Seventh Edition. He received his Ph.D. in Computer Science from Brigham Young University.

Dr. Stephen Burd is an Associate Professor at the University of New Mexico, where he has been teaching courses in management information systems, networks, databases, and hardware/software since 1984. The author of more than seven top-selling textbooks for Course Technology and Cengage Learning, Dr. Burd brings significant strengths and industry knowledge to this text. He received his B.B.A. and M.B.A. from the University of Baltimore and his Ph.D. from Purdue University.

Users Review

From reader reviews:

Ruth Powers:

Nowadays reading books are more than want or need but also be a life style. This reading behavior give you lot of advantages. The advantages you got of course the knowledge your information inside the book that will improve your knowledge and information. The data you get based on what kind of guide you read, if you want have more knowledge just go with knowledge books but if you want truly feel happy read one with theme for entertaining for instance comic or novel. Typically the Systems Analysis & Design in a Changing World, Fourth Edition is kind of guide which is giving the reader unforeseen experience.

Debra Davis:

Do you have something that you enjoy such as book? The e-book lovers usually prefer to decide on book like comic, limited story and the biggest some may be novel.
