**Understanding Quantitative and Qualitative Research in Early Childhood Education (Early Childhood Education Series (Teachers College Pr))** By William Lawrence Goodwin, Laura D. Goodwin

What are the fundamental elements of good quantitative and qualitative education? What are the strengths and weaknesses of each approach? What does research offer early childhood education? Are quantitative and qualitative approaches compatible? This work presents the research process and its components in a straightforward and accessible manner. Using real examples from early childhood education, William L. Goodwin and Laura D. Goodwin explore various methods of research and show how they may be studied and applied. They examine the major aspects of both quantitative and qualitative paradigms and techniques, stressing the compatibility and complementary nature of the two approaches that are so often seen as mutually exclusive if not contradictory.

## **Editorial Review**

### **About the Author**

William Goodwin is a Senior Lecturer in the Department of Forensic and Investigative Science at the University of Central Lancashire where his main teaching areas are molecular biology and its application to forensic analysis. Prior to this he worked for eight years at the Department of Forensic Medicine and Science in the Human Identification Centre where he was involved in a number of international cases involving the identifications of individuals from air crashes and from clandestine graves. His research has focused on the analysis of DNA from archaeological samples and highly compromised human remains. He has acted as an expert witness and also as a consultant for international humanitarian organisations and forensic service providers.

Adrian Linacre is a Senior Lecturer at the Centre for Forensic Science at the University of Strathclyde where his main areas of teaching are aspects of forensic biology, population genetics and human identification. His research areas include the use of non-human DNA in forensic science and the mechanisms behind the transfer and persistence of DNA at crime scenes. He has published over 50 papers in international journals, has presented at a number of international conferences and is on the editorial board of *Forensic Science International: Genetics*. Dr Linacre works as an assessor for the Council for the Registration of Forensic Practitioners (CRFP) in the area of human contact traces and is a Registered Practitioner.

Sibte Hadi is a Senior Lecturer in the Department of Forensic and Investigative Science at the University of Central Lancashire. His main teaching areas are Forensic Medicine and DNA profiling. He is a physician by training and practised forensic pathology for a number of years in Pakistan before undertaking a PhD in Forensic Genetics. Following this he worked at the Department of Molecular Biology Louisiana State University as a member of the Louisiana Healthy Aging Study group. He has acted as a consultant to forensic service providers in the USA and Pakistan. His current research is focused on population genetics, DNA databases and gene expression studies for different forensic applications.

## **Users Review**

### **From reader reviews:**

#### **Michael Chapman:**

The knowledge that you get from *Understanding Quantitative and Qualitative Research in Early Childhood Education (Early Childhood Education Series (Teachers College Pr))* will be the more deep you looking the information that hide in the words the more you get thinking about reading it. It doesn't mean that this book is hard to know but *Understanding Quantitative and Qualitative Research in Early Childhood Education (Early Childhood Education Series (Teachers College Pr))* giving you enjoyment feeling of reading. The article writer conveys their point in certain way that can be understood through anyone who read the item because the author of this publication is well-known enough. This book also makes your personal vocabulary increase well. Therefore it is easy to understand then can go together with you, both in printed or e-book style are available. We recommend you for having this *Understanding Quantitative and Qualitative Research in Early Childhood Education (Early Childhood Education Series (Teachers College Pr))* instantly.

**Jay Blanchard:**
