Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals By Shawn Wallace

This book describes how to build and program an Arduino-controlled machine for drawing algorithmic compositions on walls with a marker. The mechanism consists of two stepper motors with spools attached; the motors are attached to either side of the drawing area and a marker is suspended between them attached to fishing line. The motors pull the marker along the wall; with a little trigonometry you can draw straight lines, circles, or Bezier curves. The book builds up a library of drawing elements that can be combined to draw almost anything. The book accompanies a kit available in the Maker Shed, or all the parts can be sourced separately from common parts.

Editorial Review

About the Author

Shawn Wallace has been applying computers to graphics problems for the past fifteen years. A programmer and artist, Shawn is managing director of the AS220 (www.as220.org) artist community in Providence, RI, a cofounder of the SMT Computing Society, and a member of the Rhode Island chapter of the Perl Mongers. He is also involved in the Bolero open source music notation system (www.as220.org/shawn/bolero) and the Institute for Folk Computing, a program to inform and inspire the use of open software by the general public in Providence. Shawn studied computer engineering at the University of Rhode Island and participated in the construction of an early (mid-80s) hypermedia delivery system at HyperView Systems in Middletown, RI.

Users Review

From reader reviews:

Douglas Whatley:

Do you have favorite book? When you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each book has different aim or goal; it means that publication has different type. Some people sense enjoy to spend their the perfect time to read a book. They are really reading whatever they acquire because their hobby is definitely reading a book. Why not the person who don't like examining a book? Sometime, man or woman feel need book after they found difficult problem or perhaps exercise. Well, probably you'll have this Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals.

John Householder:

This Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals usually are reliable for you who want to be a successful person, why. The reason why of this Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals can be one of several great books you must have is actually giving you more than just simple studying food but feed an individual with information that maybe will shock your before knowledge. This book will be handy, you can bring it everywhere and whenever your conditions both in e-book and printed people. Beside that this Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals forcing you to have an enormous of experience for example rich vocabulary, giving you trial of critical thinking that could it useful in your day task. So , let's have it appreciate reading.

Traci Daniels:

The reason why? Because this Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals is an unordinary book that the inside of the publication waiting for you to snap that but latter it will zap you with the secret the idea inside. Reading this book beside it was fantastic author who have write the book in such

awesome way makes the content on the inside easier to understand, entertaining means but still convey the meaning completely. So , it is good for you for not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of gains than the other book possess such as help improving your talent and your critical thinking way. So , still want to hold up having that book? If I were being you I will go to the reserve store hurriedly.

Mary Kidd:

Reading a reserve make you to get more knowledge from this. You can take knowledge and information from a book. Book is written or printed or outlined from each source which filled update of news. In this particular modern era like right now, many ways to get information are available for an individual. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just trying to find the Make an Arduino-Controlled Drawbot: A Machine for Drawing Murals when you needed it?
