Master Techniques in Orthopaedic Surgery: Shoulder By Edward V Craig MD

The Third Edition of *The Shoulder*, the respected volume in the *Master Techniques in Orthopaedic Surgery* series has been fully revised to cover current surgical techniques and to highlight the latest advances in shoulder arthroplasty. The world's foremost shoulder surgeons explain their preferred approaches and offer step-by-step procedural guidance—including indications and contraindications for each procedure, warnings of potential pitfalls, guidance on managing complications, and tips and pearls garnered from years of surgical experience. New chapters cover recent advances in arthroscopic surgery, rotator cuff and arthroplasty, treatment of shoulder instability, and management of traumatic shoulder injuries. Nearly 1200 full color illustrations and line drawings enhance surgical descriptions. A companion website provides fully searchable text and a detailed image bank.

NEW in the Third Edition...

- **Eight new chapters** describe the latest advances in arthroscopic surgery, rotator cuff and arthroplasty, treatment of shoulder instability, and management of traumatic shoulder injuries.
- **Contributions from world-renowned orthopedic surgeons** share insights on their preferred techniques
- **1,150 full color illustrations** highlight detailed, step-by-step coverage of surgical techniques.
- **Companion website** lets you search the complete text and provides a detailed image bank.

Editorial Review

Review

"This is one of those rare books that, despite the fact that there are four shoulder books already on your shelf, is worth adding. I can't imagine a finer collection of contributing authors on the topic of shoulder surgery."

"Masterful! I have always loved this series, as I feel it lets me learn pearls from the best practitioners in the world. This entry on the shoulder is no different. Ed Craig has done a superb job of gathering the best in the world to keep us up to date. It is a great book and a worthy edition to the hospital, academic, and personal library. I may have to get an extra copy for the residents because they surely aren't going to get mine!"
