## Megawords: 200 Terms You Really Need to Know By Richard Osborne

Richard Osborne has done something very special here. He takes us on an exciting journey into the knowledge required to exist, survive, thrive, in the new millennium, in an interconnected global space that includes cyberpunk and cyborg, chaos theory and conspiracy theories, the postcolonial and the diaspora, hybridity and whiteness, the postmodern and the post-feminist, the digital and the Net, as much as older yet still influential terms like Enlightenment, empiricism, positivism, aesthetics, agency, nationhood and citizenship.

Osborne writes with wit, wisdom, and insight, always wary of any approach becoming an orthodoxy. He shows how particular concepts arise at particular times with particular authors and intellectual personalities. The entries proceed by illuminating examples, engaging anecdotes, subtle cross-referencing, wide historical contexts' - *John Docker, author of Postmodernism and Popular Culture: A Cultural History*

Written by the author of the international bestseller **Philosophy for Beginners**, **Megawords** provides definitions for the key terms every student in the humanities and social sciences needs to know.

Do you know your animus from your anomie? Puzzled by all that jargon at university? Now there's no need to be...

In 1976 Raymond Williams published his classic book **Keywords** - which analyzed the genesis of key cultural concepts that were in use at that time. Richard Osborne presents **Megawords** a 21st century **Keywords**. The book is not simply a glossary, rather it is a map of the links between ideas and concepts in the humanities and without which no self-respecting student should set sail.

- provides definitions for the key terms every student in the humanities and social sciences needs to know
- is written in an accessible and lucid style
- has huge potential for students across the humanities and 'soft' social science subjects

Written by the author of the international bestseller **Philosophy for Beginners**, **Megawords** provides definitions for the key terms every student in the humanities and social sciences needs to know.
