The global healthcare industry is undergoing a profound and fundamental shift from rewarding volume of sales, procedures performed, and patients treated towards a focus on improving overall health, patient outcomes and value for the health system. *Healthcare Disrupted* is the much-needed, authoritative guide to the massive transformation taking place, how to prepare for what's to come, strategies of the new leaders, and our roles as individuals, executives, policy leaders, investors, innovators, entrepreneurs, and educators.

Conveniently organized into three parts, this comprehensive resource first looks at how and why the healthcare industry is changing, then examines four front-running business models to succeed in the new landscape, and finally details how to build organizations fit to collaborate and compete in the redefined markets.
