The Mammals of the Southern African Sub-region By J. D. Skinner, Christian T. Chimimba

This comprehensive volume covers all mammals that occur naturally on the African mainland south of the Cunene and Zambezi rivers, and also in the subregion's coastal waters. Extensively revised and updated for the new edition, it now includes the latest data from mammal research in southern Africa along with the radical taxonomic changes across all levels of mammalian classification. Containing contributions from specialists on each mammalian order, each species description has been reviewed by a range of independent and internationally recognised authorities. Along with the latest taxonomic information, the distribution maps and illustrations have been updated and redrawn, several new colour plates have been added, and the whole design has been enhanced to aid access to key information. This is the most comprehensive and up-to-date survey of southern-African mammals and forms an essential reference for zoologists, evolutionary biologists and anyone wanting an overview of the region's wildlife.

Editorial Review

Review

“Easily accessible to professional and general readers alike, this monumental work is absolutely indispensable for anyone interested in or working with Southern African mammals. Without it, no mammalian library is complete. Essential.” --Choice

Users Review

From reader reviews:

Gina Melton:

People live in this new day time of lifestyle always try to and must have the extra time or they will get great deal of stress from both day to day life and work. So , whenever we ask do people have extra time, we will say absolutely indeed. People is human not really a robot. Then we consult again, what kind of activity do you have when the spare time coming to an individual of course your answer will certainly unlimited right. Then do you try this one, reading guides. It can be your alternative with spending your spare time, the actual book you have read will be The Mammals of the Southern African Sub-region.

Lori Morgan:

This The Mammals of the Southern African Sub-region is new way for you who has intense curiosity to look for some information mainly because it relief your hunger details. Getting deeper you in it getting knowledge more you know or else you who still having little digest in reading this The Mammals of the Southern African Sub-region can be the light food for you because the information inside this specific book is easy to get through anyone. These books build itself in the form that is certainly reachable by anyone, that's why I mean in the e-book contact form. People who think that in reserve form make them feel tired even dizzy this guide is the answer. So there is absolutely no in reading a guide especially this one. You can find actually looking for.
