A Practical Guide to Teaching Computing and ICT in the Secondary School (Routledge Teaching Guides) By Andrew Connell, Anthony Edwards, Alison Hramiak, Gavin Rhoades, Neil Stanley

A Practical Guide to Teaching Computing and ICT in the Secondary School offers straightforward guidance and inspiration to support all trainee and newly qualified teachers, as well as their tutors and mentors. It will also be a source of support and ideas for qualified teachers who wish to develop their teaching of Computing as a subject, in light of recent changes to the National Curriculum.

Grounded in the best research and practice available, it focuses on the key pedagogical issues which arise during teacher training and offers stimulating activities based on tried and tested strategies. Comprehensively updated and restructured to reflect recent changes in the curriculum, Initial Teacher Training Standards and classroom technologies, it covers key aspects of Computing and ICT teaching:

- Planning pupil learning and progression
- Managing the learning environment
- Using assessment to improve pupil learning and your own teaching
- Developing pupils' understanding of key concepts and ideas in Computing, including Computational Thinking and Programming
- Pupils' common misconceptions and how to avoid them
- Helping pupils appreciate good and bad effects of computing.

A Practical Guide to Teaching Computing and ICT in the Secondary School, written by experts in the field, provides detailed examples of theory in practice, enabling you to analyse and reflect on your own teaching in order to ensure pupil learning is maximised.

Users Review

From reader reviews:

Carolyn Fletcher:

This book untitled A Practical Guide to Teaching Computing and ICT in the Secondary School (Routledge Teaching Guides) to be one of several books in which best seller in this year, that is because when you read this book you can get a lot of benefit in it. You will easily to buy that book in the book shop or you can order it through online. The publisher in this book sells the e-book too. It makes you quicker to read this book, as you can read this book in your Smartphone. So there is no reason for your requirements to past this publication from your list.

Walter Godinez:

Reading a e-book tends to be new life style within this era globalization. With looking at you can get a lot of information that can give you benefit in your life. With book everyone in this world may share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire all their reader with their story or their experience. Not only the story that share in the publications. But also they write about the ability about something that you need instance. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors these days always try to improve their expertise in writing, they also doing some research before they write with their book. One of them is this A Practical Guide to Teaching Computing and ICT in the Secondary School (Routledge Teaching Guides).

Betty Bobbitt:

A Practical Guide to Teaching Computing and ICT in the Secondary School (Routledge Teaching Guides) can be one of your nice books that are good idea. Many of us recommend that straight away because this book has good vocabulary that will increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to place every word into enjoyment arrangement in writing A Practical Guide to Teaching Computing and ICT in the Secondary School (Routledge Teaching Guides) yet doesn't forget the main point, giving the reader the hottest and

based confirm resource information that maybe you can be certainly one of it. This great information can certainly drawn you into brand-new stage of crucial considering.

Jessica Harris:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library or make summary for some publication, they are complained. Just tiny students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this A Practical Guide to Teaching Computing and ICT in the Secondary School (Routledge Teaching Guides) can make you feel more interested to read.
