We Got Steam Heat! By Dan Holohan

If you're a homeowner with steam heat, know that I wrote this one for you. If you'd like to fix uneven heat and squirting air vents or want to reduce your fuel bills and silence clanging pipes, then arm yourself with this book and smile. This is not a do-it-yourself book. Here's what you'll learn: How your steam-heating system works (and why it might not) What each component does (or what it's supposed to do) Why high pressure in a steam-heating system won't work How the choice of fuels can affect your system What causes all that noise (and how to get ride of it once and for all) Simple ways to lower your fuel bill What you can do yourself When you should keep your hands in your pockets How to find a steam-heating pro (and how to avoid the knuckleheads) Things that should be in every contract you sign for steam-heating work The right questions to ask when replacing a boiler How to fix, move, clean, paint and/or replace an old radiator How to have a hot-water zone added to your steam-heating system How to know if you can have your steam-heating system converted to hot-water heat And a whole lot more! Arm yourself with this book. You will not be sorry. Dan Holohan

This book is excellent. My wife bought me this book as part of the super deal with the "Lost Art of Steam Heating" and "A pocketful of Steam Problems (with Solutions)". These books have been invaluable to me as a homeowner and have given me the confidence and knowledge to tackle a lot of our steam problems ourselves. I encourage anyone with a steam heating system to read these books before contacting your local contractor. It will provide you with the right information to make the right decisions and avoid throwing money at a situation that may have an easy solution (i.e. venting, insulation etc). We no longer have cold rooms in our house and our daughters are no longer suffer in cold bedrooms; what a difference to last season. And as an added bonus we have seen a 40% savings in our heating bill. --HeatingHelp.com customer
